

# WEBLEDS CLIENT

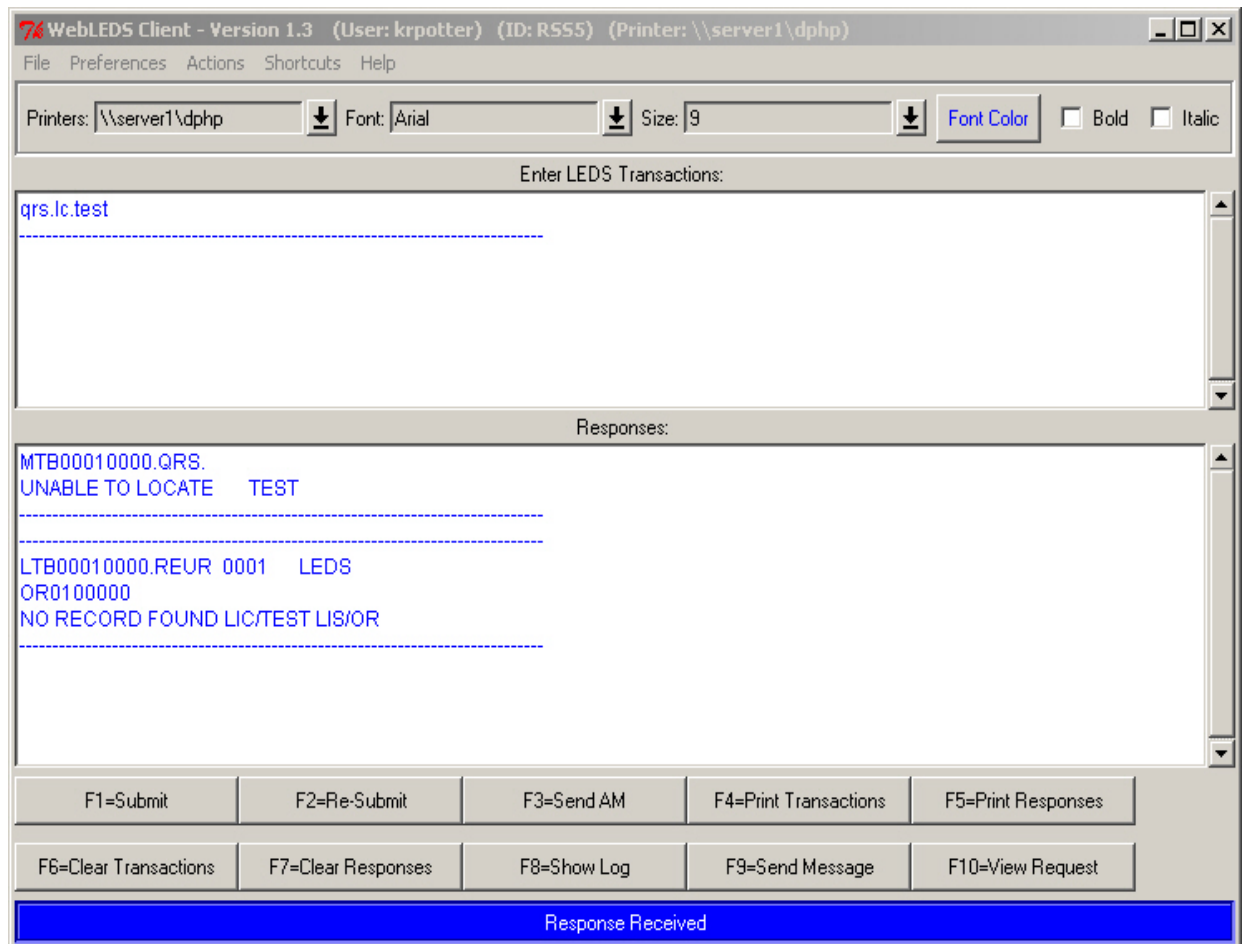

**WebLEDS Client**, The Graphical User Interface alternative for WebLEDS:

Designed for Dispatch centers, and other Heads-down data-entry folks. The WebLEDS GUI split screen design allows users to easily see their entered transactions in the top window, and their returning responses scroll automatically in the bottom window.

Contains our unique "Shortcut Creation" feature, allowing each user to individually create as many 1 letter shortcut transactions for any LEDS command they wish.

Contains complete printing support, as well as user to user instant messaging.

**WebLEDS** - OREGON'S BEST LEDS APPLICATION
